

Unitec Recycling Corporation Down Stream Due Diligence Policy

In accordance with the State of IL Public Act 095-0950
"Electronics Products Recycling and Reuse Act" An Act concerning Safety
URC as a registered Illinois recycler sets forth the following policy pertaining to and
effecting of shipments from its facility of electronic equipment, equipment
components or other materials such as for material reclamation:

All downstream purchasers and vendors or representatives of end markets must in
writing supply assurances that its activities fall within the accepted US EPA as well as
other state and local guidelines

For e-waste and in particular focus materials, and do not violate the trans-boundary
laws and regulations
of the United States or other countries.

Prior to any transaction to ship equipment, components or materials a vendor must
disclose to Unitec the
Purpose and nature of the use of the contents to be shipped, and the place to which
the contents will be engaged for such use.
